

10/8/2017

Congratulations to Chris Vuyancih on her efforts to establish a support group that addresses the needs of stroke survivors who were young when they had their strokes. These survivors have common issues that are best discussed in a separate forum from the general population of stroke survivors. As a group focusing on their unique needs, these survivors will be valuable resources to each other as they share their stories in their efforts to achieve successful outcomes for the challenges they face.

I want to thank Chris for all her support over the years of the Cleveland Stroke Club and wish her good luck as she realizes her dreams.

Geri Pitts
Executive Director
Cleveland Stroke Club
