Communication Devices

Lingraphica <https://www.aphasia.com>

Software for Communication Practice

- *We recommend that you download free demo's or try out the programs in our lab before purchasing. A couple of minutes practice can save money and frustration.*
- *There are a lot of techies in our groups. If you want to try out a program, just ask. Someone will have a copy of the program that you can try out. Deb has most of them on her laptop.*

Software for Windows PC or on the Web

Bungalow Software: Multiple Choice and Fill-in the blank. (Download free one month trial or order a trial CD for \$9.50. Modules can be purchased.) <http://www.bungalowsoftware.com/> Use for practice. Versions in Windows. Currently available in the Speak Easy lab and can be used at no cost to you.

Parrot Software (\$25/mo Web Subscription) <http://www.parrotsoftware.com/> Use for practice. Web-based software: features available for Windows/Mac or any computer or phone that has Web access.

Rewordify <https://rewordify.com/> (Free) Copy/paste passages into the Website and it will simplify written words.

www.ManyThings.org (Free) Interesting word lists, games, etc. -- ESL (English as a Second Language).

Natural Reader (Free) <http://www.naturalreaders.com/>. Reads whatever is highlighted on the computer screen. Windows, Mac, Internet Explorer, MP3. Use for reading or proof-reading.

Sentence Shaper <http://sentenceshaper.com/the-company/> (Free trial) Helps survivors build speech sentences, clever but complicated.

WordQ and SpeakQ by Qullsoft <http://www.gogsoftware.com>. (\$159 for WordQ and \$69 for SpeakQ. Free one month trial downloads available). Works with any Microsoft program (Word, Excel, Powerpoint, Internet Explorer, etc.). Word Q is for PC or Mac; Speak Q is for PC only. Use for writing (word predictor), reading, and proof-reading.

Text to Speech E-Books & Audio Books for E-Readers, iPads, and PCs

Libraries have audio books that can be checked out and downloaded. Contact your library for instructions.

Kindle Fire and Kindle Fire HD has excellent text to speech capability. Books can be downloaded by www.Amazon.com . Many books also can be linked to professionally read audio books so the text is highlighted as the actor is reading.

Nook has e-book and audio book capability. A good source for downloading books for the Nook is: www.Audiobooksnow.com

PC & iPads, Phones, iPods, etc. See www.amazon.com and www.audible.com .

Good Apps for Reading Text Aloud on the iPad:

- Voice Dream \$10 <https://www.voicedream.com/>
- Speak it \$ 2 also available in the google store
- VBOOKZ \$ 5 <https://www.vbookz.com/>
- Search on the Web: "Text to Voice Read E Pub"

Also note: audio books can be checked-out from libraries. The libraries even have tech experts to do it for you. Several Speak Easy members download library books and can help you.

For a step-by-step guide for downloading books to e-readers contact Deb.

Speech, Communication, and Aphasia Resources

Books and Cards and Picture Dictionaries for Communication Practice

Speech Exercises collected/donated by Speech Pathologists (free on-line, available for download).
<http://www.speakingofspeech.com>.

Speech Practice Pack I. Shows mouth and speaking of the word. It is published by Interactive Therapeutics, Inc., P.O. Box 1805, Stow, Ohio 44224. 1-800-253-5111. It is also available on-line:
<http://www.alimed.com/speech-images.html>.

Webber Photo Cards (Verbs) <http://www.superduperinc.com/>.

Targeting Spelling Strategies...the second time around. Written by Susan Howell Brubaker, M.S., CCC-SLP. Published by Brubaker Books, 248-649-6425 www.BrubakerBooks.com.

Building Word Recall from Everyday Situations. A Manual for Therapists, Clients, and Families. Written by: Susan Breiding. 800-897-3202 www.proedinc.com.

HELP for Vocabulary. Handbook of Exercises for Language Processing. Written by Andrea M. Lazzari. Published by LinguSystems, Inc. 800-776-4332 www.linguisystems.com.

Speech After Stroke: A Manual for the Speech Pathologist and Family Member
(<http://www.amazon.com/Speech-After-Stroke-Manual-Pathologist/dp/0398041229>)

Also, look for any book in the "English as a second language" section of bookstores.

Adult Picture Dictionary

Dictionaries are organized in categories: transportation, food, health, home, neighborhood, emotion, reference words (days, months, colors, etc.), science, etc. Use it like a foreign language dictionary: point to what you want or look-up the spelling below the picture. Available on Amazon.com

For people who can read

Oxford Picture Dictionary Third Edition: Monolingual Dictionary 3rd ed. Edition, by Jame Adelson-Goldstein and Norma Shapiro. Oxford University Press. (Available on Amazon.com)

Oxford Picture Dictionary Third Edition: High-Beginning Workbook by Majorie Fuchs Paperback

Oxford Picture Dictionary Third Edition: Low-Beginning Workbook by Jane Spigarelli Paperback

The workbooks help stroke survivors learn how to use the dictionary and improve communication skill. An answer key is included.

For people with reading challenges

Oxford Basic Picture Dictionary, Monolingual English, Second Edition by Margot Gramer. Oxford University Press. www.oup.com. (Also available on Amazon)

The Basic Oxford Picture Dictionary, Workbook, 2nd ed. by Jayme Adelson-Goldstein, Fiona Armstrong and Norma Shapiro. www.oup.com. The workbook helps stroke survivors learn how to use the dictionary and improve communication skill. An answer key is included. (Also available on Amazon.)

Board Games and Computer Games for Communication Practice

Board Games

- These games are available for inspection. Ask Deb.

Scattergories	Crossword Puzzles	Sudoku	Taboo	Checkers
Outburst	Word Puzzles	Bingo	Solitaire	Word Searches
Scrabble	Mahjongg	Blurt	Monopoly	
Pictionary	Upwords	Dominoes	Quiddler	
Card Games (War, Slap Jack, Go Fish, Uno)		Game Shows (Price is Right, Wheel of Fortune)		

Computer Games

- We can demonstrate these games for you. They are available in our Computer Lab.

<http://www.happy-neuron.com/>

<http://www.lumosity.com/>

Wii Games: including Big Brain Academy

We also like the puzzles in the Plain Dealer (hints are available).

Accessible Dining, Hotel Rooms, Car and Travel Recommendations

Accessible Dining

Most restaurants will accommodate you, if you call ahead. If you make a reservation, come a little early and if you can't come, make sure you that you call and cancel. **Here is a list of services that many restaurants will provide, if you call ahead.**

- Even when a restaurant has steps at the main entrance, they may have **wheelchair accessible door** in the back or side. Some restaurants will provide a **ramp** for you.
- Restaurants can **reserve a table** that meets your needs— a table near the bathroom, etc.
- If you call ahead, restaurants can **reserve parking for you or offer valet parking** or escort you into the restaurant. If you need to double-park to drop-off, let the restaurant know.
- Many restaurants give better service during **off-hours**: at 11:00 or 1:00 for lunch; or early bird at 5:00 for dinner. We avoid trendy bars and restaurants on Fri. and Sat. nights, and visit them during the week. For weekend nights we dine early or chose a quiet neighborhood restaurant.
- If you need help reading a menu, waiters will help, but we recommend that you **get a copy of the menu ahead of time** (online, stop by, or call and ask about specials).
- Some of the older restaurants have restrooms in the basement. Do not assume this is the only restroom. Many restaurants also have **one-person restrooms** for the staff on the main level.
- If you have a favorite restaurant that is not accessible, stop-by and **talk to the owner**. Many owners, especially of locally owned establishments, will find a way to keep good customers.

After you arrive at the restaurant:

- You can request that the **cook cut your food** (salad, meat, or sandwiches). You can ask the wait staff to help you with **packaging**—creamers, sugar, wrapped napkins, to-go boxes, etc.
- Managers and receptionists can help you **open doors** (outside doors and bathroom doors). If the handicap access doors or cutouts are blocked (or not shoveled) tell the hostess or manager.

Reserving Accessible Hotel Rooms

It is not enough to call a hotel and ask for a handicap room or reserve a handicap room online.

People with disabilities have very different needs. The earlier that you make a reservation, the more likely that your needs will be met. Assume you will tire easily, your routines will be disrupted, and you will spend significant time in your room. Safety, comfort, and food availability are not optional. Here are some questions to ask.

- **Bathroom Grab Bars.** You can ask for rooms with bars on the right or the left side of the toilet. Many of the new hotels have rooms with both options and can meet your needs for safety.
- **Shower seat.** Many of the newer hotels have walk-in/wheel-in showers. If the bathroom does not have a built-in shower seat, you can request a shower seat. If you need a heavy duty shower seat, request one when you make the reservation or bring your own. (Don't assume heavy duty equipment.)
- **Bedside Commode.** If you need a bedside commode request one when you make the reservation. Many of the commodes are all-in-ones that can also be used as a shower seat and high-rise toilet seat with arm rest. Again, if you need heavy duty equipment: request it when you make the reservation, bring it, or send one ahead to a friend who lives nearby.

Travel Resources

- **Lounge chair.** Request a lounge chair when you make the reservation. Many of the rooms have only a love seat, which does not provide adequate back support and leg elevation.
- **Food.** There is really nothing nicer than crashing and dining in. When looking for a hotel choose one with a good restaurant and room service; breakfast and happy hour buffets; or kitchen and shopping service.
- **Handicap parking and accessibility of the room.** Handicap rooms are usually in the corners on upper levels. It's a lot of walking. If you want ground level and closer parking, ask for it.
- **Appliances.** If you are staying for several nights, you can request a toaster oven, kettle, microwave, or whatever you need to heat up a few meals. It doesn't hurt to ask.
- **Accessible Vans.** Buses and hotel vans often **do not** have continuous grab bars from the curb to the seat (there's a large space where the driver sits and often a step from the aisle to the seat). If the hotel has a wheelchair accessible van, stroke survivors can safely walk onto **the wheelchair lift**. Ask the hotel to reserve handicap transportation when you reserve the room.
- **Laundry service** is important for extended stays.
- **Extras.** If there is a walk-in shower you will need **extra towels** to wipe water off the floor, for safety. You will also need **extra wash cloths** for refreshing yourself (the air in hotels is very dry), and **extra drinking glasses** for medication. You can ask for these items at the front desk the first night and then request it from room service after that.
- You may want to **invite friends to visit you at your hotel** to enjoy the pool and/or buffets, instead of visiting at their homes. If they visit you then you do not have to worry about accessibility and comfort—when you get tired, just ask visitors to visit in the lobby for a while.

Additional hotel services

- **Pharmacy.** The desk clerk can help you get the medication you need. If you run out of prescription medication, a pharmacy can dispense small quantities until they can check with your physician or pharmacy back home. Many hotels have a van service that can pick-up your medication or medical supplies, or they can arrange for delivery. Hospitals can dispense meds.
- If you want your **room temperature** warmer or cooler, talk to the room service attendant or leave a note. They will accommodate your request.
- **Emergency. Dial "0" and ask the desk clerk to dial 911.** The clerk will assist you. Make sure you take identifying information and a list of medications with you to the hospital.

Accessible Car Reservations

In the past, car rental businesses were not very accommodating to persons with accessibility requests because the companies could not guarantee the availability of a specific make and model car. If you need a car with specific dimensions (height or head room or trunk space) or specific modifications (turning knob, hand controls, etc.) or a wheelchair van contact the **disability hotline** of the rental organization. They will make every effort to get you the exact car or modification that you need. Here are a few links:

- Enterprise <https://www.enterprise.com/en/help/customers-with-disabilities.html> or call: 1 (844) 556-4935.
- Hertz <https://www.hertz.com/rentacar/rental-car-deals/Hertz-Wheelchair-Accessible-Vehicles> call: 1 800 801 122 .
- Alamo https://www.alamo.com/en_US/car-rental/customers-with-disabilities.html or call: 800-651-1223.

Travel Resources

- Local van rental organizations. In many cities there are handicap van rental businesses that will rent or lease or sell or modify your vans and cars. In NE Ohio you can contact: <https://www.mobilityworks.com/wheelchair-vans-for-rent/> or call: [1-877-275-4915](tel:1-877-275-4915)

Travel Planning Recommendations by Dr. Elizabeth Dreben

- Have realistic expectations.
- Include fun and relaxation for all: don't overtire the survivor.
- Advanced planning is essential...ask the stroke survivor their preferences, don't assume.
- Information will help reduce the anxiety.
- Prepare a list of usual routines and medicines: what is needed, helpful, and not required.
- Prioritize and be willing to cross things off.
- Build in rest periods.
- Be flexible and of good humor: be willing to make midcourse adjustments.
